

# Southeastern 2010

*Build your future now*

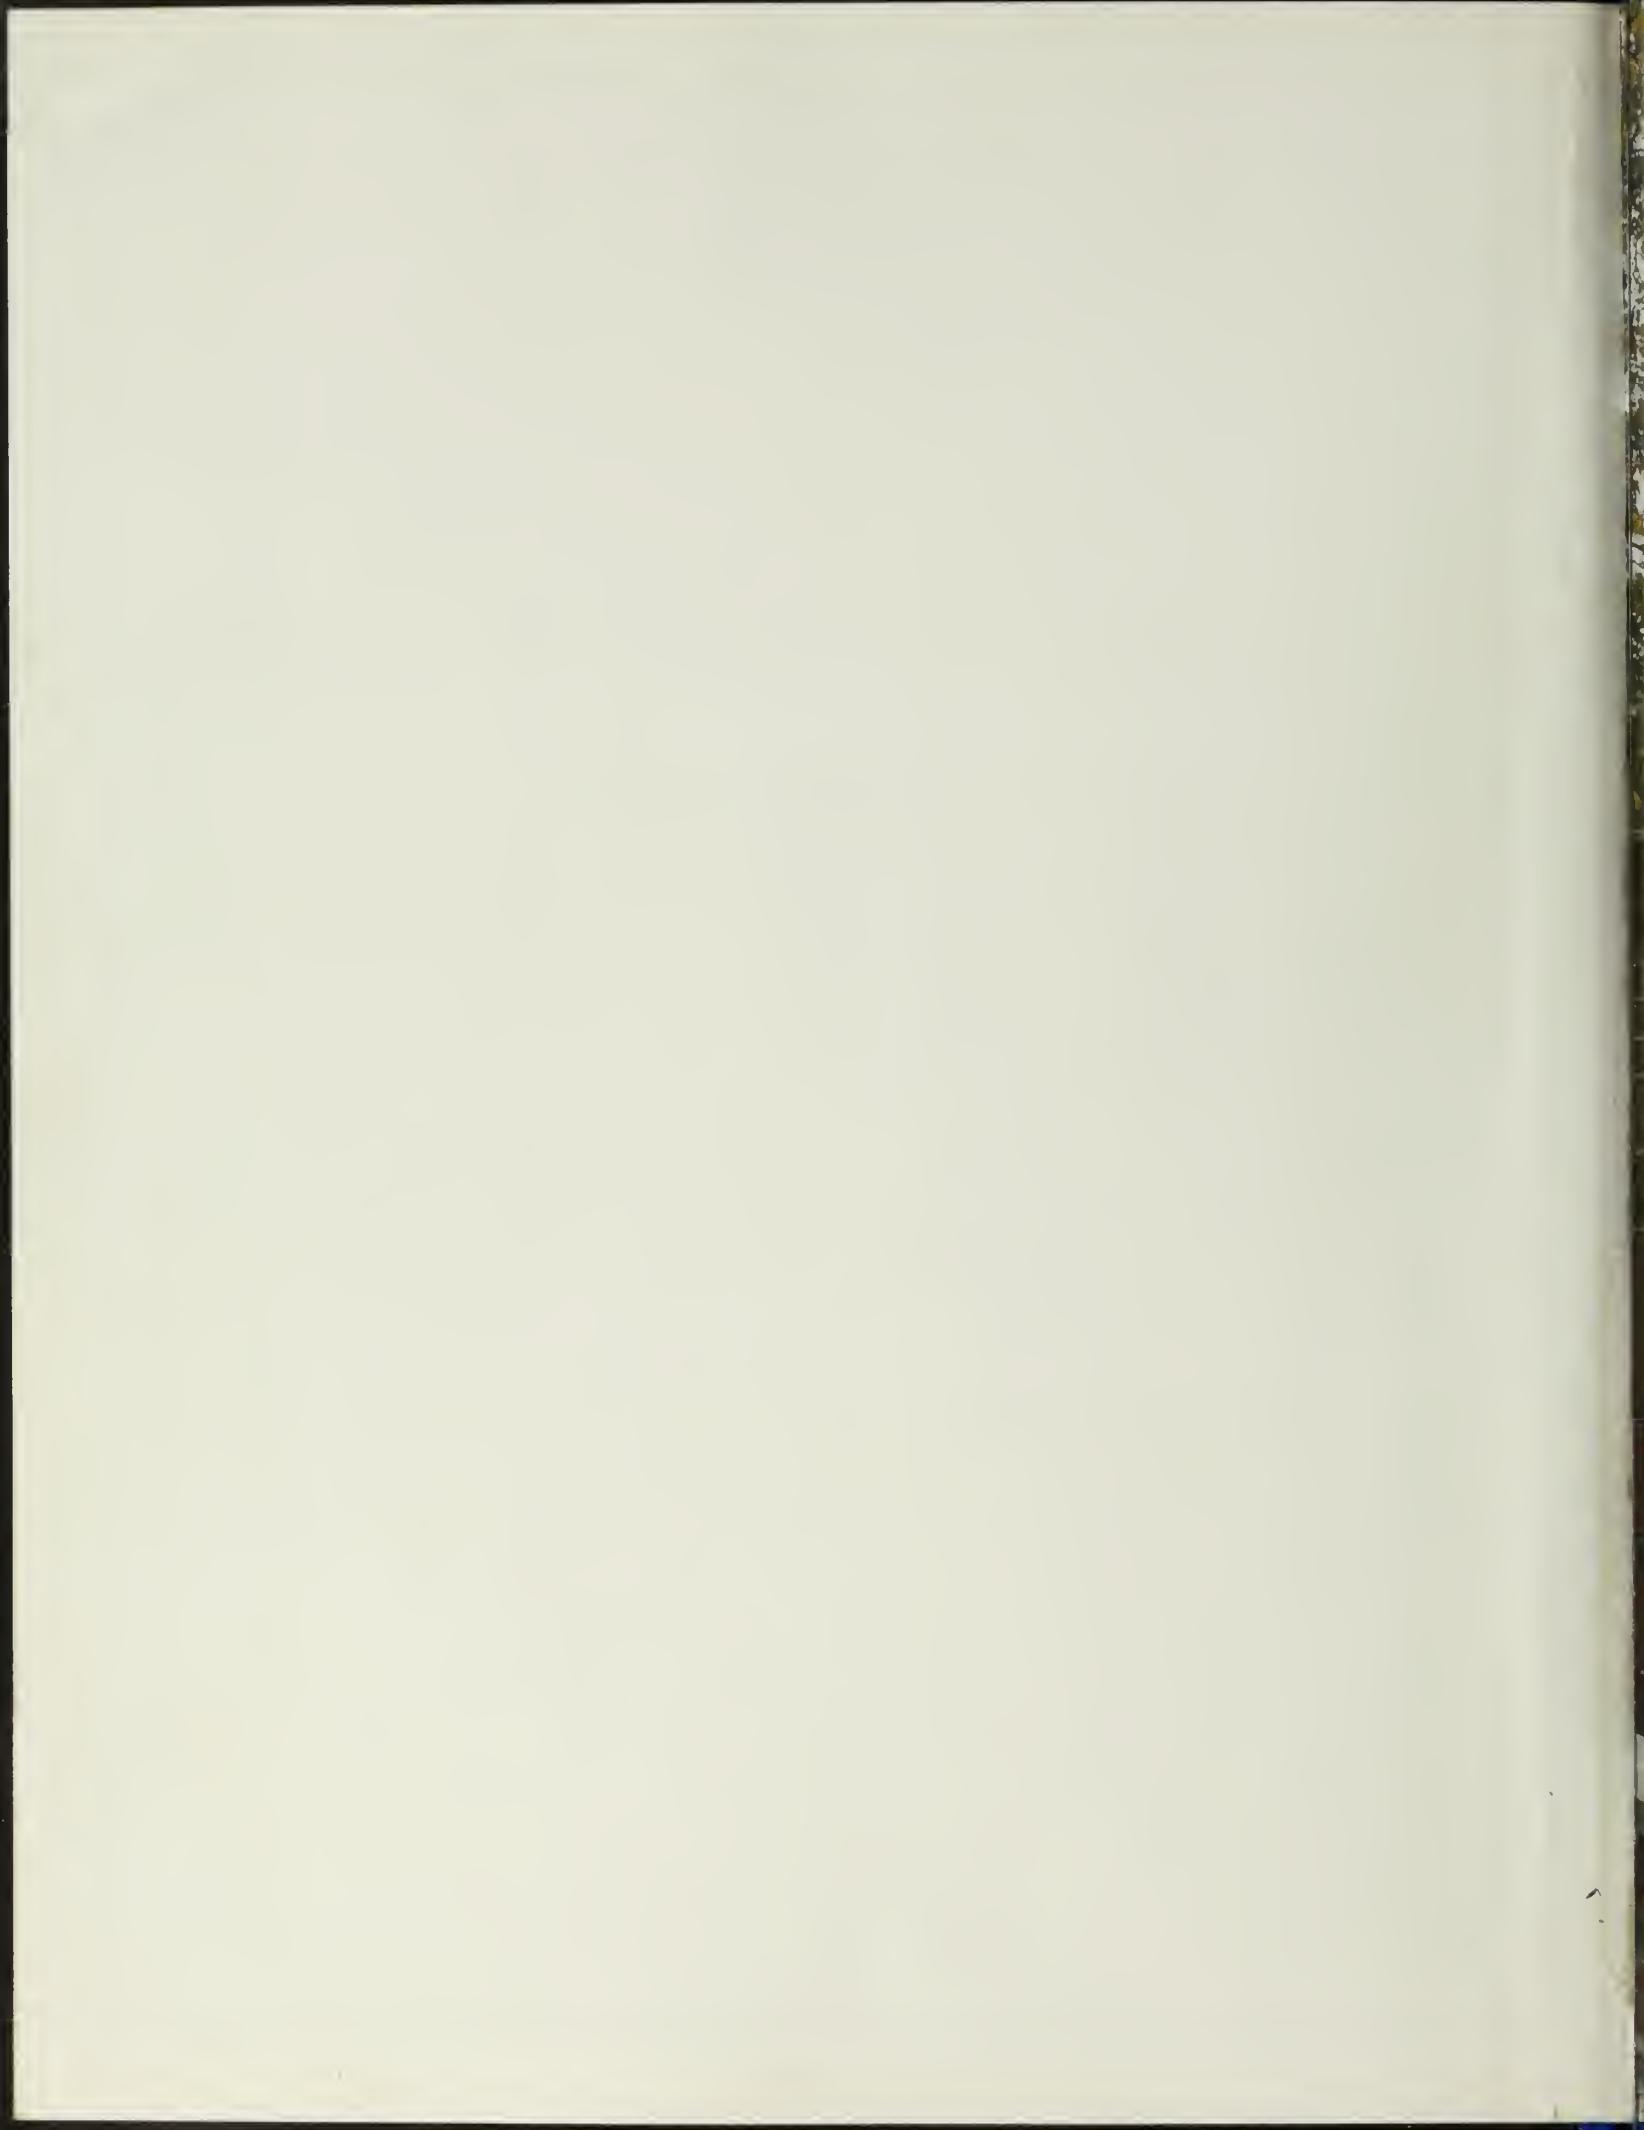

LIBRARY

*Southeastern*

*Class of 2010*

# *Southeastern Regional Vocational Technical High School*

250 Foundry St  
Easton, MA 02375  
1.508.230.1200

# *To the Graduating Class of 2010*

## **To the Class of 2010, Congratulations!**

As a graduate of Southeastern, you join the thousands of students who have passed through these doors and made a decision to take their career seriously. You graduate with the vocational and academic skills necessary to be successful in any endeavor. Nationwide, the United States is trying to rebound from difficult economic times. Take advantage of the skills that you were taught along with new skills that will be acquired throughout your life in order to provide leadership for future generations.

Finally, although you are beginning a new chapter of your life and the road you choose may take you far away from the school, always know that you have a lifelong commitment from Southeastern to ensure your success and we look forward to hearing from and helping you in the future.

## **Class of 2010:**

Congratulations on your accomplishments. You have achieved the first major step on your way to success – a high school diploma and vocational certificate. You have worked hard to prepare yourselves over the past four years, and now it's time to think about that next step. Some of you will go on to continue your education, while others will join the workforce or serve our country. No matter which path you choose, I am confident you are prepared for a lifetime of learning.

# Open House 2009-2010

Southeastern's open house is an opportunity for the students and staff to come together to show the community what the school offers. The vocational instructors are able to show their working projects and their finished masterpieces. Academic teacher have the chance to demonstrate the new technology and text books that are gracing our classrooms.

National Honor Society, DECA, yearbook club, school store, alumni committee, student council, and representatives from all four classes are present to inform the students and their families about the upcoming events happening at southeastern. Among the many stations to visit, the students can also sign up for fall sports.

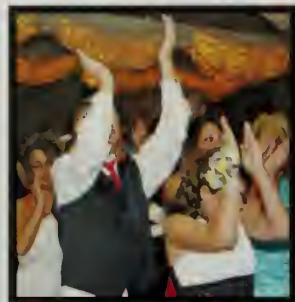

The open house also gives the junior high students the sense of how the school operates. They can meet their potential teachers and administrators.

Southeastern's open house theme this year was "Build your future now". This theme is carried throughout our school all year long. Southeastern prides itself on building the future of todays children to ensure a better tomorrow.

# Course Description

## Automotive Technology

The Automotive industry has undergone phenomenal growth in the past four decades. A widely diversified range of employment opportunities await automotive technology students seeking a challenging and rewarding career. Opportunities in networking and multiplexing, service repair, engineering, parts programming, diagnostics, performance modification, racing development, and many more are now available to motivated and educated students. Well trained entry-level automotive technicians have a distinct advantage over novice entry-level technicians. The shop and related classroom curriculum give Automotive students the unique advantage of foundational knowledge as well as practical experience. Our Automotive program is also NATEF certified. Students have the opportunity to earn a General Industry OSHA certification.

## Business & Marketing

In order to be successful in any business, a student must have a solid understanding how business and the economy function. Students who select this career strand will develop knowledge of the economic/ demographic, social/cultural, political/legal, and technological trends that are important to marketing. Students will study the role of marketing in society and within a firm, the relationship of consumer and organizational markets, marketing strategy planning, the marketing mix, marketing institutions, and other selected topics, such as international marketing, ethics, marketing research, services and not-for-profit marketing. Students have the opportunity to earn an OSHA General Industry certification.

## Cabinetmaking

Students learn the fundamentals of Carpentry while building components from wood, plastics and Masonite. During this industrial setting, modern joinery techniques are used to create everything from furniture, cabinets, and dressers using different gluing methods, stains, finish carpentry work either in a home or office, to creating a foundation for a home. By use of hands on instruction, students learn fundamental skills and craftsmanship of wood finishing.

Upon graduation students are prepared to enter the work world within the construction industry, finish carpentry or foundation construction. Those continuing their education might pursue an associates or bachelor's degree in Architectural Design, Visual Design, Interior Design, Small Business Management, Entrepreneurship or Accounting.

Students have the opportunity to earn an OSHA Construction certification.

# Course Description

## Collision Repair

Collision Repair is still among one of the fastest growing industries. Collision Repair students are able to create or replace damaged vehicle bodies and frames. Students learn to master straightening, refinishing, and painting the exterior of an automobile. They remove ruined pieces of the automobile with torches, cutting materials and welding machines. By using a state-of-the-art computer system they are able to recreate or rebuild the vehicle to its original structure. With the experience they receive in their classroom, students become highly skilled and in demand. Collision Repair is NATEF Certified. Students have the opportunity to earn an OSHA General Industry certification.

## Construction Technology

The Construction Technology program introduces the student to building materials and supplies used in construction with a strong emphasis on safety while using hand and power tools in the shop and on the job site. Students will be taught blueprint reading, framing, installation of windows, doors, stairs, exterior and interior finish, roofing as well as commercial carpentry. The carpentry trade offers numerous career opportunities, from constructing concrete forms to creating fine cabinetry. Carpenters build beautiful structures that last for centuries and have one of the highest job satisfaction rates of any career in the construction industry. Carpenters have opportunities to work in residential, commercial, and industrial construction such as: Surveying, Site Work, Concrete Forms, Framing, Scaffold-Erection, Roofing, Siding, Drywall, Suspended Ceilings, Exterior Finish, Interior Finish, and Retail Sales. Apprentice carpenters can go on to become journeymen or master carpenters, estimators, architects, construction managers, and contractors.

## Cosmetology

Cosmetology students learn to become innovative, professionally trained individuals that are in constant demand. Hairstylists and cosmetologists provide all types of services such as hairstyling, makeup application, coloring, curling, perming, scalp treatments, facials and manicures. By learning various techniques, students are able to work and analyze what the client will need in any area of hair, makeup or aesthetics. The courses we offer foster the work ethic, life skills, and competencies necessary for life-long learning and career success. Among our many responsibilities is the development and allocation of resources to meet the constantly and rapidly changing demands of the industry. Students have the opportunity to receive their Cosmetology License upon completion of 1000 hours and passing both the written and performance Licensing exam. They also earn an OSHA general industry certification and First Aid and CPR certification.

# Course Description

## Criminal Justice

Events in our nation and abroad have sharpened the focus on security and safety. Many private firms, public agencies, corporations, small businesses, individuals, communities, and local, regional, and state government employ security and law enforcement professionals. The Criminal Justice field is central to sound management of the public and private enterprise system. This program prepares students to enter the security and protection field or continue their education at college or law enforcement or protection academies. Through this program, students will learn the theory and operation of security and legal protection systems. Students have the opportunity to earn an OSHA general industry certification and First Aid and CPR certification. As part of the curriculum students become I-Safe Mentor certified and are trained on Iris Recognition Software.

## Culinary Arts

The Culinary Arts program is designed to give the student a strong foundation in culinary practices using an industrial setting. The student will be introduced to all aspects of the culinary trade while working in the student run restaurant. The students will be encouraged to focus on the understanding and practical hands on training provided. During their study at Southeastern, students receive extensive training in baking, cooking, industrialized food service, and dining room functions. Upon successfully completing this program the student will have the ability to pursue further postsecondary education and/or training by taking advantage of articulation agreements with post secondary culinary schools. The knowledge and skills obtained will give the student the advantage in the food service field. Students will have the opportunity to go to work while participating in our co-op program second semester. Students have the opportunity to earn a Serv-Safe certificate, an OSHA general industry certification and First Aid and CPR certification.

## Early Education & Care

The philosophy of the Early Education and Care Program is to provide our students with the knowledge and skills to become confident, responsible and caring adults as educational professionals and members of the world community. The Early Education and Care Program provides students with a firm foundation in the study of Child Growth and Development providing students with the tools to identify developmentally appropriate behaviors and milestones from birth to age seven through study, observations, hands-on experiences and implementation of assessment tools. Students will be able to identify, plan and present developmental activities in an Early Education classroom in accordance with the Department of Early Education and Care and the National Association for the Education of Young Children (NAYEC). Students have the opportunity to earn an OSHA general industry certification and First Aid and CPR certification.

# *Course Description*

## **Electricity**

Students learn skills that enable them to become future electricians. Students install the main components of a circuit board, conduit piping to protect wires, maintain electrical systems, and install fiber optic or coaxial cable lines within a home or office. Student electricians learn to read blueprints to work on complex electrical devices and oscilloscopes to diagnosis problems that may be hazardous. Students learn the Massachusetts and Federal wiring codes to work different schematics within wiring, codes, maintenance, installation and job estimation.

## **Electronics**

From the portable DVD player to the cell phone you use to communicate with your friends and family, experts in the field of electronics have their hand in putting together, marketing, selling, and maintaining the many different electrical gadgets available to consumers. Southeastern students in electronics study the flow of charge through various materials and devices such as semiconductors, resistors, inductors, capacitors, nano-structures and vacuum tubes and explore the design and construction of electronic circuits to solve practical problems.

## **Environmental Engineering**

Students in environmental studies use what they learn in the sciences, social sciences, and humanities to understanding environmental issues. They will take an in-depth look at how we interact with the natural world and develop ideas on how we can prevent its further destruction. Students will learn to design, develop and evaluate structures, equipment, and systems that protect the environment from the effects of human activity and improve public health and well-being.

# Course Description

## Graphic Communications

For every newspaper, book, or other printed product, there is a production crew laboring behind the scenes, from printing press operators to bindery workers. Students will learn the basics of good design, which include the way type (style of lettering) and images are used to make visual statements. In graphic communications, students will acquire the skills necessary to design, plan, prepare, and complete print jobs, from assembling film to operation printing equipment to cutting and collating the finished product.

## Health Services

Health Service Assistants are able to provide all types of personal care within the health care field. Support is provided either in a hospital, rehab, or home setting. Healthcare assistants can work in every area of health care such as personal home care aids, psychiatric aides and medical assistants in a doctor's office. Students may obtain state licensure as a Patient Care Assistant, CPR licensure, and Home Health aide certification.

## HVAC-R

Climate control is an important focus in every business and residence making HVAC students in high demand. During their course of study, students will learn the various applications that are used within maintained techniques of compressors, piping refrigerant lines, pressure gauges, electrical circuits, burners and thermostats. Students also master the skills of installation and troubleshooting of heating and air conditioning refrigeration units. Students have the opportunity to earn numerous certifications such as Construction OSHA, EPA 608 Refrigerant Certification, and R-410a. Students also earn hours toward Refrigeration.

# Course Description

## Information Technology and Networking

As information technology continues to evolve, computer technicians continue to play an essential role in the everyday efficiency of organizations. Students in ISS/ networking are involved in maintenance, installation, troubleshooting, and upgrades of computer hardware, software, networks, and mail systems. Students who successfully complete the competency requirements of this program will be eligible for Comptia A+ and Networks+ certification.

## Machine Technology

The Machine Technology program trains students to become skilled machinists by creating, designing, cutting, and shaping both metal and plastic. The use of computer programmed machines helps create molds, tools, and parts for everything that one might use on a daily basis from a toothbrush to a carburetor for a car. Students learn how to innovate new parts that may assist with manufacturing needs. Lathes, milling machines, grinders, and drill presses help create and design concise components that make a manufacturer's product. This field has changed and the trade that your parents knew has been replaced by one in which Machinist/Toolmakers work in air-conditioned comfort to exacting tolerances in clean and safe environments. The future job prospects look very good because of a lack of qualified people to perform precision work. We have more job opportunities than we have qualified students to fill them and from all indications that will not change.

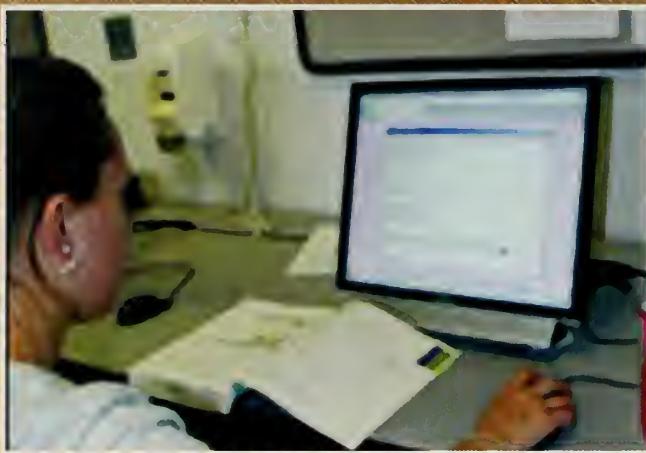

## Metal Fabrication

Metal fabrication students learn skills that include creating different shapes for cars and motorcycles using metal, sheet metal and plastic processing. In a diverse field, students will experience different types of welding such as, oxygen-acetylene welding, arc welding, inert gas process and resistance welding which are the tools that are needed to work within the metal fabrication field. Employers are in constant need of highly skilled specialized metal fabricators for the machine industry, marine industry or automotive industry. Also, metal fabrication uses rolling machines, bending, forming machines and shearing machines to cut metal forms down to size.

# Course Description

## Office Technology

Office Technology offers students the opportunity to obtain the skills needed to work with modern office technology in a business setting. Students are exposed to work in a wide array of business and industries throughout the District, providing support and knowledge on state of the art computer hardware and software. Keyboarding, accounting, database design and management, administrative procedures, written and verbal communications, digital imaging, and meeting procedures are collectively a part of this program of study.

## Performing Arts

Recently added to the Design & Visual Communication department, the program study of Performing Arts demonstrates a vital communications medium that accentuates both sight and sound. Students who select this specialization are instructed in music theory, composition and improvisation, music history, form and analysis, ear training, and instrumental technique classes. Students are given the opportunity to perform classical, jazz, mariachi and popular music in both large and small ensembles.

## Plumbing

Plumbing students learn the important skills in an industrious setting. Plumbing and pipefitters install and repair pipe systems that carry water, steam, air, or other fluids or gases. Plumbers install and repair water, waste, and gas systems in homes. Pipefitters install and repair pipe systems used in manufacturing. They also work on pipe systems that generate electricity and heat and cool buildings. Students learn to read and utilize blueprints. Tools of the industry include pipe wrenches, cutters, torches, and threading machines.

# Course Description

## Pre-Engineering/CAD

Closely aligned with project lead the way (PLTW), this program of study offers students in-depth, hands-on knowledge of engineering and technology based skills and projects. Computer integrated manufacturing digital electronics, and principals of engineering from the foundation of study with such students can expand upon. Senior year students may select from a variety of specialized course offerings based upon several areas of interest; civil engineering & architecture, engineering design and development, and aeronautic engineering. This curriculum prepares students for demanding 2, and 4 year collage engineering programs.

## Visual Arts

In this major, you'll learn what it takes to communicate ideas and information effectively - no matter what art form you're using. Typography, illustration, digital imaging, video design and communications and photography form the basis of instruction in this program of study. Portfolio and resume preparation, senior project, career options, and interview techniques round out this rigorous program.

## Web Design and Animation

Creating that perfect combination of visual appeal and usability is what web designers do for a living. By using type (lettering), images, and other visual devices, web designers create a digital playground where consumers can find the information they need while enjoying the ride. Students will learn how to use visual devices - such as typography, images, and color - to communicate, educate, and persuade. Part artist, part computer buff, you'll need to master a huge variety of software programs, from HTML to web design and multimedia design tools. Equal parts creativity and business sense will also help you succeed in this challenging program of study.

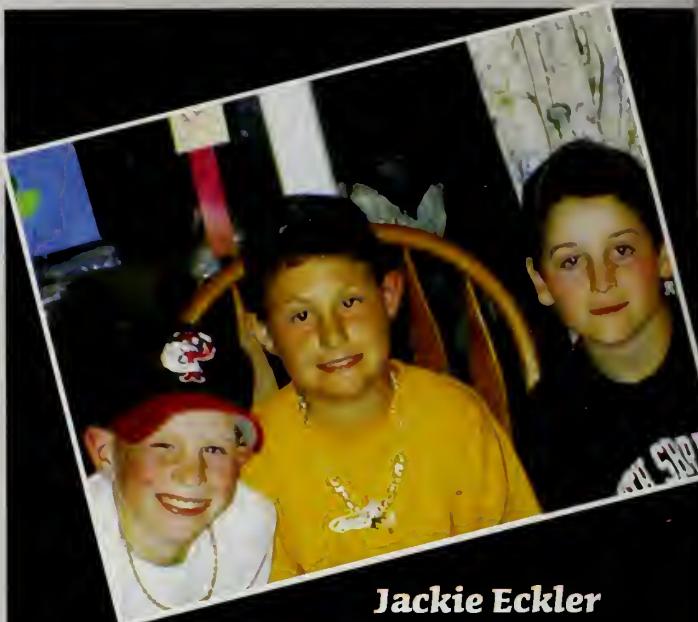

**Samantha Ahern**

A daughter is happy memories of the past, joyful memories of the present, and the hope and promise of the future. You've never let an obstacle stop you and you've met all challenges with that smile of yours-keep it up. We love you.

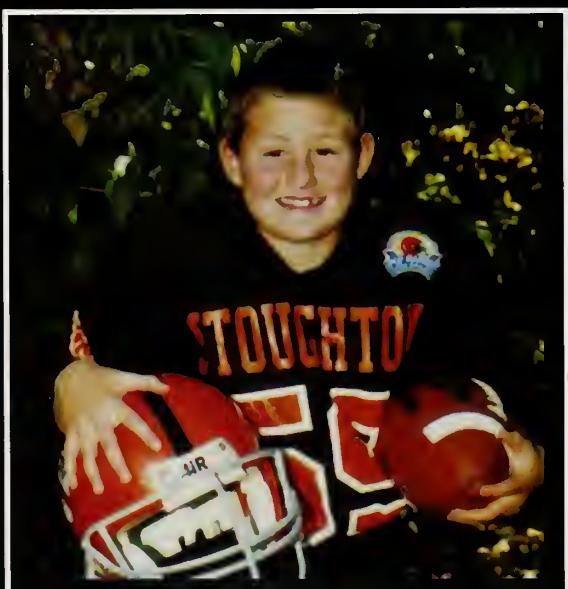

Mom, Dad, BJ & Stephen

**Jackie Eckler**

Watching you grow up has been an amazing experience. I am so proud of who you have become. May your life be full of happiness and success.

Love,  
Heather

**Jackie Eckler**

Jackie,

-Aristotle

"Do not go where the path may lead; go instead where there is no path and leave a trail"  
-Ralph Waldo Emerson

Try not to become a man of success, but rather try to become a man of value.  
~Albert Einstein

Always be a first-rate version of yourself, instead of a second-rate version of somebody else.  
~Judy Garland

# *In loving Memory*

## *Mark N. Apostle*

*August 24, 1950 - January 7, 2010*

Dear little cabin, I've loved you so long,  
And now I must bid you good-bye!  
I've filled you with laughter, I've thrilled you with  
song.  
And sometimes I've wished I could cry.  
Your walls they have witnessed a weariful fight,  
And rung to a won Waterloo:  
But oh, in my triumph I'm dreary to-night --  
Good-bye, little cabin, to you!

Your roof is bewhiskered, your floor is a-slant,  
Your walls seem to sag and to swing;  
I'm trying to find just your faults, but I can't --  
You poor, tired, heart-broken old thing!  
I've seen when you've been the best friend that I  
had,  
Your light like a gem on the snow;  
You're sort of a part of me -- Gee! but I'm sad;  
I hate, little cabin, to go.

Below your cracked window red raspberries  
climb;  
A hornet's nest hangs from a beam;  
Your rafters are scribbled with adage and rhyme,  
And dimmed with tobacco and dream.  
"Each day has its laugh", and "Don't worry, just  
work".  
Such mottoes reproachfully shine.  
Old calendars dangle -- what memories lurk  
About you, dear cabin of mine!

I hear the world-call and the clang of the fight;  
I hear the hoarse cry of my kind;  
Yet well do I know, as I quit you to-night,  
It's Youth that I'm leaving behind.  
And often I'll think of you, empty and black,  
Moose antlers nailed over your door:  
Oh, if I should perish my ghost will come back  
To dwell in you, cabin, once more!

How cold, still and lonely, how weary you seem!  
A last wistful look and I'll go.  
Oh, will you remember the lad with his dream!  
The lad that you comforted so.  
The shadows enfold you, it's drawing to-night;  
The evening star needles the sky:  
And huh! but it's stinging and stabbing my sight --  
God bless you, old cabin, good-bye!

**SLIPPERY SLOPE**  
Nearly 16 million Americans lost their jobs in the wake of the recession. The increased wave of lay-offs put the national unemployment rate at 10.2%, the highest in over 26 years. Although the economy began to rebound from the worst recession in 70 years, employers continued to be wary.

© RICH ABRAHAMSON/UPI/Landov

## BALLOON HOAX

Millions watched as a large metallic balloon, said to be carrying a 6 year old boy, soared through the air in Colorado. When it landed and "balloon boy" Falcon Heene was not inside, the world was relieved to learn he had been hiding in the attic the entire time. Three days later, after a telling interview, the whole spectacle was deemed a hoax in the parents' pursuit of fame and fortune. The parents pled guilty to criminal charges and received jail time.

© ANN TATKO-PETERSON/MCT/Landov

## FORT HOOD TRAGEDY

On November 5, 2009, Fort Hood, America's largest military base, transformed from a place where soldiers prepare for war to an actual battlefield. Major Nidal Malik Hasan, a licensed military psychiatrist, opened fire in the processing center where soldiers report before deployment. Twelve soldiers and one civilian lost their lives, while 30 others were injured, including Hasan. In the past, Hasan had been openly critical about the war on terror.

## CLUNKERS MAKE SOME NOISE

For nearly a month in the summer of 2009 America was consumed by CARS (Car Allowance Rebate System), commonly known as Cash for Clunkers. The government program was designed to encourage drivers to trade-in old gas-guzzlers in favor of new, fuel-efficient vehicles. With an incentive of up to \$4,500, the program was wildly successful and nearly 700,000 cars were traded in.

© Reuters/Landov

## A MUSIC ICON REMEMBERED

Legendary performer Michael Jackson passed away suddenly at the age of 50. As news spread of his death, the internet suffered a significant slowdown as people worldwide conducted simultaneous searches. Jackson was also nominated for five American Music Awards in 2009, including Artist of the Year, after his music saw a tremendous surge in sales and airplay. As a final tribute, Sony Pictures released *This Is It*. The never-before-seen footage of Jackson rehearsing for his final 50 shows was a massive success, making millions.

© MAI/Landov

## ALL A BUZZ

Kavya Shivashankar, a 13 year old from Kansas, won the Scripps National Spelling Bee. A four-time competitor and aspiring neurosurgeon, Kavya won the trophy and more than \$40,000 in cash and prizes with her correct spelling of "Laodicean" — meaning lukewarm or indifferent in religion or politics.

© EXIS C. GLENN/UPI/Landov

## LIBERTY REOPENS

On July 4th one of the nation's most recognizable symbols of freedom, the Statue of Liberty, reopened its crown to visitors. After the September 11th attacks, the monument was closed to all visitors until 2004 when the base and lower observation decks were reopened. Guests will be allowed to make the 168-stair climb to the top for the next two years, when the crown will close again for safety work.

## NUCLEAR TEST

North Korea conducted a series of rocket and missile tests, including an underground nuclear bomb test in an attempt to lure the U.S. into talks to loosen sanctions. The international community was outraged, stating that the test was in clear violation of international law. In 2008, North Korea agreed to suspend its nuclear testing in exchange for economic stimulus, but the deal fell through after it removed inspectors from the country.

© PATRICK FARRELL/MCT/Landov

## OPRAH MOVES ON

Popular syndicated talk show host and business tycoon, Oprah Winfrey, announced she would end *The Oprah Winfrey Show* in late summer 2011. The news came as a shock to fans that have elevated her status to nothing short of an icon since the show's inception in 1986. Early speculation indicated she may start a new show on her own Oprah Winfrey Network in 2011. Her show currently draws about 7 million viewers a day.

© ROBERT PITTS/Landov

## CATASTROPHIC QUAKES

The island nation of Haiti was struck by a devastating 7.0 magnitude earthquake so strong it could be felt nearly 200 miles away. The flattened capital city left millions seeking shelter and medical attention and Haitian government officials estimated over 111,000 people lost their lives. Humanitarian organizations such as the Red Cross set up aid and relief efforts while streamlining donations by allowing individuals to text message pledges. Within days, over \$355 million in donations had been raised through the combined efforts of companies, charities and individuals.

### IRANIAN ELECTION PROTESTS

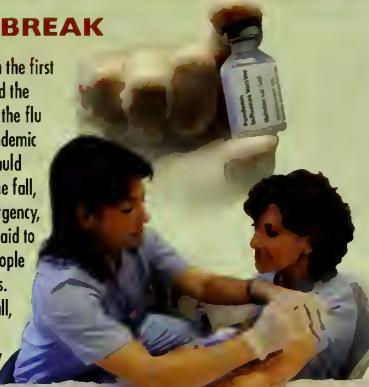

Iran's presidential election drew international attention when disputes over the winner sparked two weeks of protests. Reformist activists claimed Mahmoud Ahmadinejad's landslide win was a fraudulent mishandling of the ballots. The protests resulted in 20 fatalities, numerous arrests and trials for nearly 100 demonstrators facing charges such as attacking government property, violence toward security forces and creating panic in public.

© MARYAM RAHMANIAN/UPI/Landov

### H1N1 FLU OUTBREAK

In the spring of 2009, H1N1 emerged with the first reported cases in Mexico. The virus reached the United States in April and officials worried the flu would spread rapidly, causing a global pandemic and fear that the unpredictable flu virus could mutate into a more dangerous strain. In the fall, President Obama declared a national emergency, enabling the government to provide more aid to the states. In the U.S. alone, millions of people were infected and thousands lost their lives. When a vaccine became available in the fall, thousands flooded phone lines and clinics around the country, as the demand greatly outnumbered the first supply.

### TOYOTA TROUBLES

Automobile giant, Toyota, recalled eight of its models after learning of a problem with its acceleration mechanisms that caused some gas pedals to stick and vehicles to accelerate without warning. Though the company said the problem is "rare and infrequent" it decided to recall about 4.2 million vehicles worldwide and brought U.S. sales and production to a halt. The company tried to remedy the situation and ease the nerves of uncertain drivers by sending new parts to dealers to fix the faulty pedals.

© ROBERT GALT/TH/Reuters/Landov

### SONIA SUPREME

With a vote of 68-31, Sonia Sotomayor became the first Hispanic person to become a Supreme Court Justice and just the third woman of all time. Sotomayor was appointed to the Supreme Court with 17 years of federal experience, having tried over 3,600 cases.

© DENNIS BLACK/Reuters/Landov

### ARES BLASTS OFF

Forty years after putting the first men on the moon, NASA is once again elevating its space program with the new Ares 1-X Rocket. The streamline rocket's simpler design is cheaper and up to 10 times safer than its shuttle predecessors. Despite a successful first test in late October, officials say that the 1-X may not carry astronauts until 2017.

TIME Magazine's  
"Best Invention of the Year".

### HEALTH CARE HURDLES

In groundbreaking sessions of Congress, both the House and Senate passed bills for health care reform after months of debate. The next step was to merge the nearly \$1 trillion proposed plans for a final vote. If passed, the bill would become the largest federal health care expansion in forty years since the introduction of Medicare and Medicaid. The goal of the bill is to bring extended insurance coverage to an additional 30 million Americans.

© JOHN MCCONNELL/Reuters/Landov

### SURPRISE PRIZE

A surprise to many, the Norwegian Nobel Committee honored President Barack Obama with the 2009 Nobel Peace Prize, just eight months into his tenure. The committee explained it was Obama's "extraordinary efforts to strengthen international diplomacy and cooperation between peoples" that brought him to the top of the nominees list. Upon learning the news, the president remarked that he was humbled by the decision.

FABRIZIO BENSCH/Reuters/Landov

### SHIFTING FRONTLINES

President Obama announced the deployment of 30,000 additional American troops to Afghanistan starting in early 2010, bringing the total U.S. presence to about 100,000 troops. The intended strategy was to combat the growing momentum of the Taliban in the region and to provide training for Afghan security forces. Plans to begin withdrawing troops were set for 2011.

PETER KNEFFEL/dpa/Landov

### DUbai IN THE SKY

Marking a stunning architectural achievement, the Burj Khalifa in Dubai opened, becoming the tallest skyscraper in the world. The towering needle-shaped structure stretches nearly 2,700 feet into the air. The building has 160 stories which include apartments, office space and a hotel designed by Giorgio Armani. The eye-catching main attraction of a new shopping district, the Burj Khalifa reportedly cost \$1.5 billion to build.

© MCT/Lumav

### FOUND 18 YEARS LATER

The discovery of Jaycee Dugard 18 years after her disappearance renewed hope for families of missing children. When Dugard was 11 years old she was abducted by Philip Garrido while walking to her school bus. Jaycee was held captive in Garrido's backyard. Both Garrido and his wife face multiple charges, including kidnapping and false imprisonment. Jaycee has since reunited with her family.

## MAD FOR IPAD

Apple unveiled its highly anticipated iPad this year to mixed reviews. Many Apple devotees were excited about the tablet with its nearly 10-inch touch screen and 3G connection, while others were skeptical about the name and data plan. As part of the iPad, Apple also released the iBook, an application that allows users to see books on a shelf, change fonts, and touch the screen to turn pages.

© NATHANIEL WILDER/Reuters/London

## PALIN RESIGNS

Alaskan Governor and 2008 Republican Vice Presidential candidate Sarah Palin resigned from office, saying that Lieutenant Governor Sean Parnell would "fight even harder" for Alaskans. Palin added that her decision was made to protect her family from further criticism and would also allow her to advocate for causes such as energy independence and national security. In January 2010, it was announced that Palin would join Fox News as a contributor.

The Sweethearts® brand is 145 years old.

## BE MINE

Sweethearts®, the popular Valentine's Day treat, added a new phrase to its line of endearing candy love messages. Teaming up with the social-network, Twitter, the candy company started stamping "Tweet Me" on its heart-shaped candies. Sweethearts also plans to introduce a new iPhone app that would allow users to send electronic versions of the candy with personalized messages to friends' Twitter pages.

© thinkstock

## ELECTRONIC TEXT BOOKS

College students caught a break this year—with free text books. Flat World Knowledge allowed 40,000 students at over 400 colleges and universities to access their course materials online, for free, saving students nearly \$3 million in the fall semester alone. With other options like print-on-demand and integrated audio and video, the company hopes to expand its offerings to other schools throughout the country.

## GOODBYE GOOD MORNING AMERICA

In a teary farewell, Diane Sawyer said "goodbye" to *Good Morning America* and "hello" to ABC's *World News*. After more than 10 years on the weekday morning show, Sawyer replaced the retiring Charles Gibson as the anchor of the nightly news program. Sawyer's replacement was George Stephanopoulos, former President Clinton staff member and moderator of *This Week* on ABC.

© FABRIZIO BENSCH/Reuters/London

## FALL OF THE WALL REMEMBERED

Twenty years ago the Berlin Wall fell, marking the end of the Cold War and the divide between East and West Germany. To celebrate the anniversary, thousands of German citizens celebrated as 1,000 towers, all 8 feet tall, were toppled to symbolize the destruction of the dividing wall. The celebration was overseen by current German Chancellor Angela Merkel and former Russian leader Mikhail Gorbachev, who many hold responsible for reforming the former Soviet Union.

## FRIGHTENING FLIGHT

On Christmas Day 2009, a Nigerian man attempted to blow up a flight carrying nearly 300 passengers from Amsterdam to Detroit, Michigan. Umar Farouk Abdulmutallab had a bomb sewn into his undergarments and tried unsuccessfully to detonate the devices as the plane made its final descent. Stringent security precautions were put into effect and President Obama ordered a thorough review of safety regulations. Al Qaeda later claimed responsibility for the terrorist act.

## LINKING LANGUAGES

Historically, URLs have been constructed with Latin based characters like 1, 2, 3 and A, B, C. Now, after approval by the International Corporation for Assigned Names and Numbers (ICANN), domain names will appear with other characters from Arabic and Chinese languages. The chairman of ICANN, Peter Dengate Thrush said, "The coming introduction of non-Latin characters represents the biggest technical change to the internet since it was created four decades ago."

## NYC FLYOVER

Workers in Manhattan, New York were panicked as a Boeing 747 and an F-16 aircraft circled the Statue of Liberty, causing many to fear a repeat of the 9/11 attacks. It was later discovered that the planes were official government aircrafts conducting a photo shoot. The official who approved the fly-over later resigned.

## ON SHAKY GROUND

The South American country of Chile was the target of an 8.8-magnitude earthquake that destroyed many villages in its path. The next day the same south-central region of the country was struck again by a tsunami that created waves over 18 feet high. Approximately 800 people lost their lives and the destruction between the two natural disasters brought widespread shortages in food.

### HOUSE PARTY CRASHED

Virginia couple Tareq and Michaela Salahi, crashed the first state dinner held by the Obamas'. Passing two security check-points, the couple mingled with Vice President Joe Biden and Chief of Staff Rahm Emanuel before exiting two hours later. The breach of security caused a full investigation by the Secret Service. Months later, speculation turned to White House social secretary Desiree Rogers who was criticized for not keeping a checklist of attendees as they entered the event. Rogers later resigned.

### LATE NIGHT SHUFFLE

After 17 years, *Tonight Show* host Jay Leno passed the torch to fellow NBC late-night personality, Conan O'Brien—but not for long. The *Tonight Show* lost millions of viewers and Lena's new self-titled primetime show was deemed a flop. Just seven months after giving O'Brien *The Tonight Show*, NBC reversed course, returning Leno to his former seat. As part of the deal, NBC agreed to pay Conan \$33 million, with \$12 million going to his staff in severance. O'Brien hosted his last show on January 22nd, while Leno returned to *The Tonight Show* on March 1st.

### FDA TAKES ON TOBACCO

The Family Smoking Prevention and Tobacco Control Act gave the FDA more power to control the tobacco industry. Under the new legislation, tobacco companies were no longer allowed to use words like "mild" or "low-tar" and were also prohibited from selling candy or fruit flavored cigarettes.

### GOOGLE CHINA

After a sophisticated cyber attack rooted in China, Google announced it would no longer censor search results on Google.cn, the Chinese version of the popular search engine. The Chinese government requires censorship of search results and websites to prevent security and state secrets from being jeopardized. China has the largest population of internet users in the world.

### AIR FRANCE

An Air France Airbus Flight AF 447 flying from Rio de Janeiro, Brazil to Paris, France crashed into the Atlantic Ocean. None of the 228 people on board survived. Despite initial reports, the plane hit the water vertically, instead of breaking apart in mid-air. The crash was the worst in Air France's 75-year history.

### DANGERS OF FAST FOOD

For two years, John Manley, a 50-year-old North Carolina man, complained of severe coughing, pneumonia, and vomiting. When doctors used a tiny camera to investigate his lungs they were shocked to find the cause—a piece of plastic. The plastic was removed and traced back to a spoon from fast-food chain Wendy's after doctors recognized the eatery's logo.

### THE NEXT AMERICAN IDOL JUDGE

After eight seasons, *American Idol* judge Paula Abdul left the show. Emmy award-winning talk show host and comedian Ellen DeGeneres filled the seat and began judging duties when the show returned for its ninth season. Shortly after the show's return another *Idol* judge, Simon Cowell announced his intended split at the end of the season. It was reported that Cowell planned to develop a new talent show series based on the popular U.K. series, *The X Factor*.

### PIRATES HOLD CAPTAIN CAPTIVE

After five days of being held hostage on the dangerous seas off the coast of Somalia, Captain Richard Phillips was rescued from his pirate captors. In a fateful moment, the pirates let down their guards long enough for U.S. Navy SEAL marksmen to take their shots, ending the lives of all three pirates. Days earlier, Phillips offered himself as a captive to the pirates in order to prevent them from seizing his vessel, the Maersk Alabama, ultimately protecting his fellow crewmen.

# Science & Discoveries

## AERODYNAMIC SEEDS

"Helicopter seeds," the seeds from maple trees, have provided hours of fun for children but researchers were stumped as to what made the seeds hover. A team of Dutch and American scientists discovered the answer. When a maple seed swirls, a tornado-like vortex lowers the air pressure around the seed, sucking the wings upward to oppose gravity— insects, bats, and hummingbirds employ the same technique.

© Jupiterimages

## IN HOT WATER

Ocean temperatures around the world measured 1 degree higher than normal between June and August, averaging 62.5°F, according to the National Oceanic and Atmospheric Administration. August saw the warmest temps on record since 1880, when record keeping began. Though climate change is listed as a factor, meteorologists say the warming is also due in part to a natural El Niño system. Ocean heat puts coral reefs in harm's way and also contributes to melting Arctic sea ice and hurricane strength.

## POO POWER PAYOFF

In response to rising energy costs year-after-year, Shawn Saylor turned to an unlikely renewable source to power his family's dairy farm. Using the manure from 600 cows, Saylor used a process known as anaerobic digestion to generate energy. Saylor explained that this method produces a savings of about \$200,000 per year with the ability to sell left over energy back to the power company.

© MICHAEL LOH/Reuters/London

## TINY T-REX

History's fearsome Tyrannosaurus Rex may have had miniature ancestors. A newly discovered ancient creature known as "Raptorex" closely resembles its massive relative, at only a fraction of the size. Experts report it may have weighed only 150 pounds compared to T-Rex's 13,000 pounds. Raptorex would have existed 60 million years before T-Rex, and despite its size, would have boasted an extremely powerful bite.

© Jupiterimages

## LET'S GO FLY A KITE

Scientists from the University of California and the Carnegie Institution have discovered a way to create sustainable energy—through kites. High-altitude winds contain a vast amount of energy. By releasing kite-like wind turbines miles above the planet and tethering them to the ground, researchers believe they could create enough energy to supply electricity worldwide.

© Ben Shepard

## COOLING SUN

Scientists have discovered that the sun is at its dimmest in over 100 years. Typically, the sun undergoes 11-year cycles, culminating in the expulsion of solar flares and planet-sized debris. After 2008 the sun was expected to become increasingly hotter, but instead it was at a 50-year low for solar pressure and a 100-year low for sunspot activity. Although dimming of the sun has resulted in decreased temperatures in the past, the onset of global warming has likely counteracted this phenomenon.

© CHRIS ISON/PA Photos/London

## COLOSSAL SEA MONSTER

The fossilized skull of an ancient sea monster called a pliosaur was discovered along the Jurassic Coast of England. The skull—dating back 150 million years—measured nearly eight feet. Scientists believe the creature's full size was up to 52 feet long, making it the biggest pliosaur ever found. The dangerous sea predator could have eaten a T-Rex for breakfast!

## A FARMER'S FRIEND

Even plants have joined in the text-messaging craze. Through SmartCrop™ infrared thermometers planted in soil, plants can "tell" farmers when they are hot or thirsty. Most crops have an ideal temperature for growth and these thermometers allow farmers to be notified by text message if a plant has risen above the ideal temp.

© Neal Hinkle

## GROWTH SPURT

The Bristlecone pine is the world's longest-lived tree, sustaining ages up to 4,800 years. Recently, researchers found that these ancient trees are growing at a much faster rate than ever before as evident by its widening rings. The growth is presumably due to the increase in temperature in their high-altitude climate over the past 50 years.

© Martin Ruegner/Digital Vision/Getty Images

## SOLAR ENERGY MAKEOVER

Developers have found two ways to make solar power panels more appealing to the average homeowner. First, underground panels use fiber optic cables to capture and distribute sun energy, instead of heavy panels. The second option is to incorporate shingle-like solar panels that have a thin copper film covering to absorb light energy into the roof. The Powerhouse™ Solar Shingle is expected to be less expensive and easier to install than full-size panels.

© WOLFGANG STEINBERG/AGENCE FRANCE PRESSE/London

## CARBON CAPTURE

Professor Klaus Lackner of Columbia University has created a "synthetic tree" able to capture destructive carbon dioxide 1,000 times better than real trees. When the wind blows through the "leaves", carbon is trapped and converted to a liquid form. One unit could remove up to a ton of carbon dioxide from the atmosphere a day—the equivalent of 20 cars.

### ROBOTS CAN SWIM!

Mechanical engineers Kamal Youcef-Toumi and Pablo Valdivia Y Alvarado of MIT designed robotic fish that can swim and maneuver just like real fish. They hope to one day use the robots to help patrol bodies of water such as lakes and rivers, looking for pollutants and inspecting underwater structures.

© Massachusetts Institute of Technology

### NOW THAT'S A RING

NASA's Spitzer Space Telescope discovered the largest ring around the planet Saturn. The never-before-seen ring is so colossal that NASA's Jet Propulsion Laboratory estimates that it would take 1 billion earth-sized planets to fill it. Composed of dust and ice particles, the ring's temperature is approximately -316°F.

© PEGGY TURBETT/The Plain Dealer/London

### SUPER NATURAL GLUE

The asparagus beetle attaches its eggs using what is said to be some of the strongest natural glue in the world. A study discovered the almost invisible eggs require a pull-off force of "8,650 times higher than the egg weight." It's not unusual for an insect to produce egg glue and this research could lead to the discovery of other natural bonding agents.

### H<sub>2</sub>O ON THE MOON

For the first time, water was discovered on the moon's surface. NASA announced its significant find after reviewing data from an intentional satellite crash it conducted in search of water. The data also revealed there were more than just droplets but rather "a dozen, two-gallon buckets." Experts said the discovery will open the door to other space exploration opportunities, including the potential for a sustainable lunar space station.

## My Discoveries

WHAT WERE YOUR FAVORITE  
DISCOVERIES OF THE YEAR?

### GLOW-IN-THE-DARK PUPPIES?

Scientists in South Korea cloned a genetically engineered litter of pups, enabling them to glow red under ultraviolet light. The intention of the experiment was to prove that if fluorescent protein can be created through the modification of genetic code, there may be a way to fix genetic flaws in humans by similar innovations in genetic coding.

© JI YOUNG-HAK/Reuters/London

© PETER D. TROJCA/Birmingham News/London

### MIGHTY MICE

In a scientific breakthrough, two labs in China bred the first induced pluripotent stem cell (iPS) mice, meaning they were the first of their kind developed from adult stem cells, instead of the more controversial embryonic cells. Scientists reprogrammed the cells back to an embryonic state where they could go on to develop into actual mice. This discovery is strong evidence that iPS cells have the potential to be used for treating disease.

### AUTISM BRAIN DISCOVERY

To learn more about the causes of autism, researchers conducted a study of MRI brain scans of 50 toddlers. Preliminary findings showed that on average, an area in the brain called the amygdala is 13% larger in young children with autism. It is believed that these children are born with normal-sized brains but later in the first year the area begins to grow larger. Autism is a developmental condition affecting as many as 1 in 150 children.

# Tech Topics

## WHAT'S THE WORD?

Social networking giant Facebook grew to more than 250 million users in 2009 and was valued at about \$15 billion. With that many users it's no wonder the site has become a part of our daily language. This trend became even more evident when New Oxford American Dictionary and the American Dialect Society announced their "Word(s) of the Year". "Unfriend" was the first internet-inspired word to take the Oxford title while the American Dialect Society announced "Tweet" as its top word for the year and "Google" as "Word of the Decade".

© ROB KIM/London

## SEEING EYEBORG

Canadian filmmaker Rob Spence has lived with permanent damage to his right eye since the age of 11. In his efforts to regain vision, Rob partnered with a camera provider in an attempt to replace his eye with a wireless, battery-powered video camera for what is being called the "Eyeborg" Project.

## CYBORG BEETLES

Ripped from the pages of science fiction comes the government-funded cyborg beetle. Development began on a project that has scientists implanting miniature electrodes into beetles to enable them to control the insects' every move via remote control. Though still in testing, the high-tech critters could one day be used as military spies.

© JAMAL SAIDI/Reuters/London

Awarded Educational Toy of the Year at the 2009 Australian Toy Hobby and Nursery Fair.

## DARTH VADER ARM

The Darth Vader robotic arm, the latest and greatest in Star Wars related toys and collectibles, is easy to assemble with 45 pieces that snap together. Though just a toy, this robotic limb has the power to grip, turn, extend and hold objects.

## 3-D TV

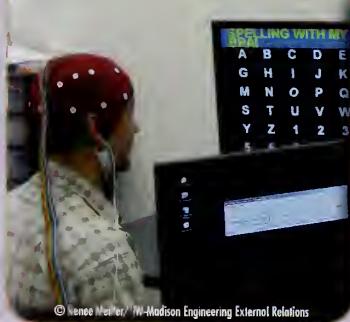

Riding a wave of popularity since the release of hit movies like *Up* and *Monsters vs. Aliens*, 3-D is coming to television. Manufacturers such as Sony, Panasonic, Mitsubishi, and JVC all reported working on 3-D televisions. In the future, viewers will have the option of watching programs in 3-D, utilizing special glasses to see the third dimension.

© ERIC GAILLARD/Reuters/London

## TWITTER ON THE MIND

Millions share their thoughts, opinions and updates every day (or hour) using Twitter. But University of Wisconsin doctoral student Adam Wilson's research revealed a new use — establishing a form of communication for those with extensive paralysis. Wearing an electrode-covered cap, Wilson focused his attention on flashing letters on a computer screen while his brain activity was monitored to figure out which letter he wanted. In the end he was able to tweet 23 characters with his mind.

© KENNE MCINTOSH/W-Madison Engineering External Relations

## THE BLADELESS FAN

It's been 127 years since the standard electric fan was introduced and people have been pretty satisfied. Now, the Dyson company, well known for its innovative vacuum cleaners, introduced the first bladeless fan. The Air Multiplier pulls air through its base, which is then pushed through a hidden vent into the circular head of the fan to create an uninterrupted breeze.

## DISPOSABLE TIMING CHIPS

After years of chunky timing devices and expensive lost chip fees, runners will benefit from disposable timing technology. Using radio frequency identification (RFID), race organizers can put an integrated tag on race bib numbers to accurately record time during competition. The cost effective design also allows runners to simply throw away the chip after racing.

© Jupiterimages

## BEATLES ROCK AGAIN

The Beatles rocked the music industry, re-releasing their famed anthology and launching their first ever video game. Decades after their last album was recorded, all 12 of The Beatles' studio albums were re-released in a new digitally remastered format. *The Beatles: Rock Band*, an experiential video game, features 45 of their hits and offers players an option to relive music history by playing through the tracks chronologically.

© RICK REESE/MCT/London

## ENERGY SAVING LIGHT

Philips Electronics introduced a new energy-efficient LED light bulb that uses just 10 watts (compared to 60 watts of the standard bulb) and generates the same amount of energy but lasts 25 times longer than its counterpart. The bulb may save as much electricity as is needed for 17.4 million households in a given year. Philips Electronics LED bulb was entered into the U.S. Department of Energy's L Prize competition and if it takes the prize, the company could be awarded \$10 million in cash and federal contracts.

### SMART THERMOSTAT

EnergyHub™ Dashboard was introduced addressing both the environmental and recession-minded concerns of today. The device wirelessly tracks your appliances and informs you of how much energy you are using. It also tells you how much your usage costs so you can make adjustments, conserve energy and pocket the savings.

### REALITY GAMING

Video games got a dose of reality by taking their inspiration from the news. Games like *Hero on the Hudson*, *Swinefighter* and *Trillion Dollar Bailout* allowed users to be a part of the headline-making stories. The two-dimensional games, mostly developed for internet or cell phones, were simple, allowing creators to release them quickly after the actual events took place.

### WALK THIS WAY

Before iPods became the "it" way to listen to music on the go, there was the Sony Walkman. Once the leader in music technology, the audio cassette player and radio turned 30 this year. The grandfather of personal music devices allowed users to take their favorite tunes anywhere, ultimately paving the way for the Discman, the MP3 player and the iPod.

### SMART PHONES GET SMARTER

The smartphone continued its rise in popularity as on-the-go technology evolved. From the popular BlackBerry® series to the iPhone, smartphones offered everyone from business professionals and techies to senior citizens and even children hand-held access to the internet and continuous connectivity to the world. Additionally, 2009 was deemed "the year of the app" by many, with available applications surpassing 100,000 (and over 1 billion downloads) that can do just about anything imaginable—from efficient and practical to simple and fun.

© FAYAZ KABLI/Reuters/London © UPI/London © ROB KIM/London © LUCAS JACKSON/Reuters/London © MARK BLINCH/Reuters/London

## My Technology

WHAT WERE YOUR FAVORITE  
GADGETS OF THE YEAR?

### THE NEW FACE OF HOLLYWOOD

Legendary filmmaker James Cameron reshaped the movie industry by helping develop the advanced camera technology used in his blockbuster hit *Avatar*. Cameron helped pioneer a lightweight, two-lens camera that can shoot dynamic live action footage in 3-D and a head-rig camera that accurately records facial expressions. The result is a stunningly realistic, digitally created movie that captures even the most obscure details on an actor's face. The computer generated characters, like those on *Avatar's* fictional planet of Pandora, appear more realistic than ever before.

© MICHAEL GERMAN/Reuters

© ROLF HANZ/dpa/London

### DIRTY WORK

A DustCart robot, reminiscent of Disney's *WALL-E*, recently took to the streets of Italy. The robot, which will be tested in cities around the world, responds to residents who place their trash and recyclables on the curb and call for pick up. It fills up its belly with unwanted waste, much the same as the traditional dump truck. Though not as efficient as a fleet of trucks, the DustCart monitors air pollutants and is much quieter, running on lithium ion batteries.

© DANI CARDONA/Reuters/London

### E-BOOK IT!

The Amazon Kindle wireless e-book reader has been growing in popularity since its introduction nearly three years ago. During the holiday season, the mobile reading device boasted record performance becoming the most gifted item in Amazon's history selling more e-books than physical books for the first time ever. Paving a growing trend, Barnes and Noble, Inc. introduced its own electronic reader, nook™ which took the number two spot on TIME Magazine's Top Gadgets of 2009.

# Scoreboard

## PURSUIT OF THE CUP

In a precursor to the World Cup next year, Brazil won the FIFA 2009 Confederations Cup held in South Africa. The Brazilians bounced back from a two-goal deficit late in the game to dramatically beat the U.S. It was the third tournament championship for Brazil and the 14th win of 15 games against the U.S.

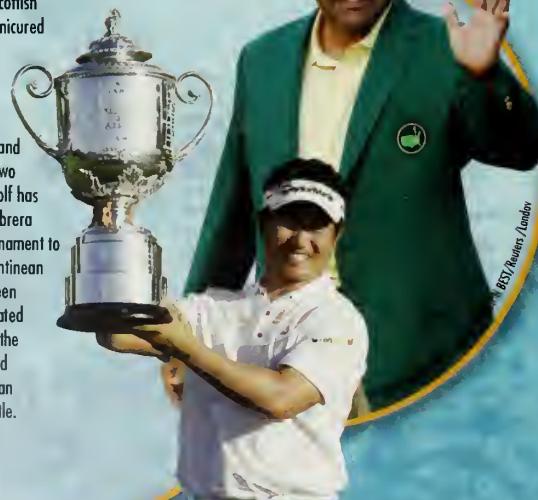

## CHAMPION MOM

Kim Clijsters rejoined the world of tennis in grand fashion. After retiring from the sport in 2007 to start a family, Clijsters returned to win the US Open. By defeating Caroline Wozniacki in the finals, the Belgian tennis pro became the first unseeded woman ever to win the 2009 US Open; and the first mother to win a Grand Slam title since Evonne Goolagong Cawley at Wimbledon in 1980.

## GOLF GOES GLOBAL

From its birth in the Scottish countryside to the manicured greens of Augusta National Golf Club in Georgia, golf traditionally has been played by Europeans and Americans. In 2009, two players proved that golf has gone global. Angel Cabrera won The Masters Tournament to become the first Argentinean to wear the prized green jacket. Y.E. Yang defeated Tiger Woods, winning the PGA Championship and becoming the first Asian man to win a major title.

## BUEHRLE PITCHES PERFECT

Chicago White Sox pitcher Mark Buehrle tossed a gem of a game on July 23rd to become only the 18th player in history to pitch a perfect game. The feat came two seasons after he threw a no-hitter, which makes him just the 26th player to throw multiple no-hitters in his career.

## YANKEES WIN 27TH TITLE

The New York Yankees defeated the defending champion Philadelphia Phillies in game six of the World Series. The win marks the 27th World Series title for the Yankees, the most titles in all of sports, and the first win in their \$1.5 billion new stadium. Hideki Matsui was named series MVP with a record-setting six RBIs in game six, while Andy Pettitte became the pitcher with the most wins in the post-season, claiming his 18th victory.

## SAINTS GO MARCHING

For the first time in its 43-year franchise history and its first appearance at the big game, the New Orleans Saints won the Super Bowl beating out the Indianapolis Colts. With a stunning defensive performance and unstoppable offensive drive that dominated three quarters, the Saints claimed its 31-17 victory. Later, team quarterback Drew Brees was honored as Most Valuable Player having tied the record for most completions in a Super Bowl, finishing with 32 completions out of 39 passes for 288 yards.

## LITTLE LEAGUE WORLD SERIES

In a suspenseful final game, California clinched the 5th straight Little League World Series title for the U.S. Fans, including Vice President Joe Biden, watched and cheered as the team fought their way back from a three-run deficit to defeat Taiwan 6-3. After the game, the team celebrated its win with class, inviting the Taiwan team to join them in their victory lap.

## WELCOME, WPS

This year marked the inaugural season for the Women's Professional Soccer (WPS) league. The league consisted of seven teams scattered across the U.S. with two more teams set to join the league in the future. With a score of 1-0, the Sky Blue FC team from New York and New Jersey defeated the Los Angeles Sol to claim the first ever WPS Championship.

This was the Laker's 15th championship title.

## LAKERS OUT TRICK MAGIC

The Los Angeles Lakers defeated the Orlando Magic in game five of the NBA finals. Four-time NBA champion Kobe Bryant was the standout star of the series, leading his team to victory and claiming the title of Most Valuable Player.

## MERCURY RISING

The Phoenix Mercury defeated the Indiana Fever to win the WNBA championship. Fueled by stars Diana Taurasi and Cappie Pondexter, the Mercury prevailed in game five to take the title. Taurasi was honored with the series MVP award.

© RICARDO ARDUENGO / Reuters / London

## WINTER X GAMES

Snowboarding star Shaun White proved his resilience and talent at the annual Winter X Games in Aspen, Colorado. After taking a spill face-first on the halfpipe while practicing his newest and most dangerous stunt, White returned to take first in the Snowboard SuperPipe competition for the third straight year. White wasn't the only repeat winner—Ophelie David took home her fourth consecutive Women's Skier X title.

© ZHANG YUWEI / Xinhua / London

## FANTASTIC FEDERER

Roger Federer cemented his place in tennis history by breaking the record for most major title wins. By winning the French Open, the Swiss tennis star tied Pete Sampras' historic record of 14 titles, while also completing his career Grand Slam. Federer went on to win Wimbledon for the sixth time, giving him his 15th major title. Sampras praised Federer by saying he was the greatest player ever.

## PENGUINS WIN STANLEY CUP

The Pittsburgh Penguins triumphed over defending champions, the Detroit Red Wings, in a nail-biting game seven of the Stanley Cup. Thanks to Penguin team member Max Talbot's two goals in the second period, the Penguins became the first team since 1971 to win game seven on the opposing team's home ice.

# My Sports

## WHAT WERE YOUR FAVORITE SPORTS HIGHLIGHTS OF THE YEAR?

## 2010 WINTER OLYMPIC HIGHLIGHTS

Many historic and memorable moments were witnessed over the 17 days of the 2010 Winter Olympics, held in Vancouver, Canada.

- In a highly-anticipated showdown between the U.S. and Canadian hockey teams, the home team claimed the gold medal in overtime, becoming the first host nation in 30 years to win a men's gold medal in hockey.
- Reigning women's figure skating world champion, Kim Yu-Na of South Korea delivered stunning performances that brought her gold and put her 23 points ahead of silver medalist Mao Asada of Japan. Taking the bronze was Canada's Joannie Rochette whose mother unexpectedly passed away just two days before the competition began.
- U.S. speed-skating star Apolo Ohno became the most decorated winter Olympian of all time with a career total of eight medals, winning three in Vancouver — two silver and one bronze.

### Medal Count

## NASCAR CHAMP

Jimmie Johnson became the first driver in NASCAR history to win four consecutive Sprint Cup series titles, breaking the tie he previously held with Carl Yarborough. By finishing fifth in the final race of the season, Johnson earned enough points to secure the title. With 6,652 points on the year, Johnson beat out his next closest opponent by 141 points.

## HORSE PLAY

In front of a crowd of over 150,000 onlookers, Mine That Bird won the Kentucky Derby. The 50-1 long shot defied the odds to take the title, returning \$103.20 on a \$2 bet. Mine That Bird appeared on the cover of *Sports Illustrated* the following week.

# Chart Toppers

Swift is the youngest winner of the Entertainer of the Year award.

## TWILIGHT SHINES BRIGHT

Now in its 10th year, the Teen Choice Awards recognized achievements in movies, television, music and more. Among the winners of the coveted surfboard trophies was *Twilight*, winning 11 out of 12 nominations, including Choice Movie Drama. The movie's stars, Robert Pattinson and Kristen Stewart also picked up top acting awards. In television, Chace Crawford and Leighton Meester won Choice Acting praise for their roles in the Choice TV Drama *Gossip Girl*. Jason Mraz and Taylor Swift both received Choice Music Artist awards.

## MICHAEL MAKES HISTORY

The American Music Awards were a night filled with emotion and history making. Adding four awards to his resume (accepted by brother Jermaine, pictured above), Michael Jackson became the most awarded artist in AMA history. Jackson won Favorite Male Artist in both the Pop/Rock and Soul/R&B genres, while his *Number Ones* album took home the top spot in both categories as well. Taylor Swift was also a big winner, taking home five awards in total, including the top honor, Artist of the Year.

## OSCAR'S BIG NIGHT

Hollywood's biggest night belonged to a lesser-known movie titled *The Hurt Locker* which picked up six awards in all, including nods for Best Director, Kathryn Bigelow and Best Picture. Bigelow was also the first woman to win the Best Directing award. In the acting categories, Sandra Bullock was honored as Best Actress for her role in *The Blind Side* and Jeff Bridges was named Best Actor for his part in *Crazy Heart*.

## MTV MOVIE AWARDS

Teens ruled the big screen this year at the MTV Movie Awards. Kristen Stewart won Best Female Performance for her role in *Twilight*, while Zac Efron won Best Male Performance for his musical performance in *High School Musical 3*. The hit vampire love story *Twilight* won top honors as Best Movie.

## SWIFT STEALS THE SHOW

The night belonged to Taylor Swift, 19, as she won all four Country Music Awards for which she was nominated. The singer won Album of the Year for *Fearless*, Video of the Year and Female Vocalist of the Year, beating out favorite Carrie Underwood. In her most impressive victory, Swift took home the trophy for Entertainer of the Year, making her the first female to win since 1999. Other winners included Darius Rucker for New Artist of the Year and Lady Antebellum for Vocal Group of the Year.

## EMMY AWARDS

Despite repeat winners, the 61st Emmy Awards still had some surprises. *30 Rock* took home the statue for Outstanding Comedy Series for the third straight year, while *Mad Men* repeated as winner of Outstanding Drama Series. *The Amazing Race* won for Best Reality Competition for the seventh consecutive year. Unexpected winners included Kristen Chenoweth for Outstanding Supporting Actress in a Comedy Series for the cancelled *Pushing Daisies* and Jon Cryer won Outstanding Supporting Actor in a Comedy Series for *Two and a Half Men*.

## BEYONCÉ'S GRAMMY RECORD

There's no doubt the night belonged to Beyoncé, who was nominated in 10 categories and won a female artist record of six trophies including Song Of The Year, Best Female Pop Vocal Performance, Best Female R&B Vocal Performance, Best Traditional R&B Vocal Performance, Best R&B Song, and Best Contemporary R&B Album. Taylor Swift was a close second with four wins including Best Female Country Vocal Performance, Best Country Song, Best Country Album and Album of the Year for *Fearless*. Among the night's most memorable moments was the appearance of Michael Jackson's kids, who accepted the Lifetime Achievement award on their father's behalf.

## MOONMAN MADNESS

The stars turned out for the Video Music Awards and the night was full of memorable moments. Janet Jackson paid tribute to her brother Michael with a moving performance to open the show. Later, in a controversial move, Kanye West stormed the stage, interrupting Taylor Swift's acceptance speech for Best Female Video. Despite the distractions, Madonna was still awarded. Beyoncé took home the prize for Video of the Year, Lady Gaga was named Best New Artist, and Green Day won Best Rock Video.

## HARRY'S MIDNIGHT MILLIONS

After two years, fans eagerly awaited the sixth installment in the Harry Potter series, which proved even more magical than the rest. The midnight showings of *Harry Potter and the Half-Blood Prince* raked in \$22.2 million at the box office, beating the previous record of \$18.5 million held by *The Dark Knight*.

Harry's opening day international box-office total reached \$104 million.

## HIGH SCHOOL COOL

The Nickelodeon Kids' Choice Awards kicked off with its traditional hijinks when host Dwayne "The Rock" Johnson zip-lined over the audience in a stunning entrance. The evening's top honors went to *High School Musical 3* for Favorite Movie and its star Vanessa Hudgens won Favorite Movie Actress. Miley Cyrus won for Favorite Female Singer and *Twilight* was named Favorite Book.

## JUNO AWARDS

Nickelback, nominated five times, took home three Junos for Group of the Year, Album of the Year, and the Fan Choice Award. Hip-hop artist Kardinal Offishall earned Best Rap Recording, while Alanis Morissette won Best Pop Album. This year marked the 38th anniversary of the Canadian-based awards.

## DECade Darlings

In celebration of a new decade, *Entertainment Weekly* published their list of top entertainers of the 2000s. Rounding out the top five were actor Johnny Depp noted for his work in *Pirates of the Caribbean*; 10-time Grammy winner Beyoncé; Harry Potter author J.K. Rowling; *American Idol* judge and entertainment mogul Simon Cowell and Emmy award-winning writer/actress Tina Fey.

## B.E.T. AWARDS

The top stars of 2009 were out at the annual Black Entertainment Television Awards. Winners included Beyoncé for Best Female R&B Artist and Best Music Video for *Single Ladies*; Ne-yo won for Best Male R&B Artist; and MTV reality stars, Day 26 took home Best Group. Other wins included Best Actor, Will Smith; Best Actress, Taraji Henson; Best Male Athlete, LeBron James and Best Female Athlete, Serena Williams.

## ALMA AWARDS

Held during National Hispanic Heritage Month in September, the ALMA Awards handed out accolades to Latinos in the entertainment industry. Winners included Selena Gomez for Comedy Actress and David Archuleta for New Artist. Eva Longoria Parker and George Lopez hosted this year's festivities.

## AVATAR STRIKES GOLD

The 67th annual Golden Globe awards' top honors for Best Motion Picture - Drama went to the blockbuster hit *Avatar* while director James Cameron also won for Best Director. Top movie acting nods went to Sandra Bullock for her role in *The Blind Side* and Jeff Bridges for *Crazy Heart*. In the television categories it was *Mad Men* that took home the trophy for Best Television Series - Drama while *Glee* was presented with Best Television Series - Comedy or Musical.

## LATIN GRAMMY AWARDS

The 10th Annual Latin Grammy Awards belonged to Cale 3. The hip-hop/alternative-reggae duo walked away with all five trophies they were nominated for including Record of the Year and Album of the Year, Best Urban Music Album, Best Alternative Song, and Best Short Form Music Video. Alternative rock also won big with Café Tacvba, Jaguares and Caetano Veloso receiving two awards each.

# Say What!!

## CUPCAKE FOR THE CURE

The world's largest cupcake record was crushed eight times over by a mammoth 1,224-pound triple vanilla cupcake containing an estimated 2 million calories. The pastry took over 12 hours to bake and included 800 eggs and 200 pounds each of sugar and flour. The cupcake was served to raise money for the Susan G. Komen for the Cure breast cancer organization.

## WHATEVER!

In a survey conducted by the Marist Institute for Public Opinion, "whatever" was found to be the most annoying word in America. With 47% of the vote, the popular word of disinterest beat out other phrases like "you know," "it is what it is," and "at the end of the day." "Whatever" gained popularity in the 1990s after its use as valley-girl slang in movies like *Clueless*.

## BOY HIT BY METEORITE

A 14 year old from Germany lived to tell his story after being struck by a meteorite traveling 30,000 mph. Explained as a massive fireball, the meteorite struck the boy's hand before hitting the ground. Though not seriously injured, the impact sent the child flying and left a three-inch scar on the boy's hand and a foot-long crater in the ground.

## SNUGGIE CHIC

Perhaps not the most anticipated show of New York's exclusive Fashion Week but probably the most unique was for the Snuggie™. Shawn to only 20 people in a hotel room, the popular blanket with arms unveiled its new collection in basic colors, as well as bold new animal prints and a Snuggie for dogs.

## ACHIEVE THE IMPOSSIBLE

Willa Chen, 17, accomplished what all college-bound teens consider impossible — acing the PSAT, SAT, and ACT college admissions tests. According to Chen, who is a senior, she did not study much for the tests but enjoys learning and plans to attend Princeton University after high school.

### CAT EARNS DIPLOMA

Oreo has always been a smart cat but did she really earn a diploma? Better Business Bureau Georgia president and CEO, Kelvin Collins, enrolled his cat Oreo into Jefferson High School Online as part of an investigation into online diploma mills. After a test and \$200 fee, Oreo was the proud recipient of her high school diploma, though Collins admits he may have helped her answer the questions.

### IT'S A BIRD, IT'S A PLANE

Japanese engineer Takuo Toda captured the Guinness World Record for longest flight by a paper airplane. The plane, measuring 10 cm long and crafted from a regular sheet of folded paper stayed in the air for an astonishing 27.9 seconds. Toda now has his eyes on an even greater prize—launching a paper airplane from space!

### COVER YOUR EARS!

Competition reached a fever pitch at Thailand's Ripley's Believe It or Not Museum where contestants from around the world competed for the title of loudest scream. The winner, Russian Sergey Savelyev rang in at 116.8 decibels, just falling short of the Guinness World Record. Though he says he was "only getting warmed up," his winning shriek was roughly as loud as an ambulance siren.

### LITTLE FASHIONISTA

While most 13 year olds are consumed by algebra, Tavi Gevinson had a different focus—high fashion. The teenager from the suburbs of Chicago shot to fame when her blog, Style Rookie, was discovered by two big name designers. Soon she was seated in the exclusive front row at several New York Fashion Week shows, impressing the industry with her poise and sharp eye.

## My Whatever

WHAT WERE SOME OF YOUR OTHER FAVORITE STORIES OF THE YEAR?

Americans eat an estimated 20 billion hot dogs each year. That's nearly 70 hot dogs per person!

### HOT DOG ACE

After eating an astonishing 68 hot dogs in 10 minutes, Joey Chestnut retained his title in the annual Nathan's Famous Fourth of July International Hot Dog-Eating Contest, held at Coney Island in New York. Chestnut edged out long-time rival Takeru Kobayashi by three and a half franks to take the title for the third straight year.

### YES CAPTAIN!

A federal judge dismissed a lawsuit filed by a consumer claiming to have been deceived by the cereal, Cap'N Crunch. After learning that Crunchberries were not real fruit and indeed sugar, the consumer sued, seeking damages for false nutritional messaging.

### LOST AND FOUND

Sixty-three years after losing his wallet at a high school basketball game, Bill Fulton received a surprising knock on the door. Remarkably, his wallet, which still included his social security card, was returned after being recovered during the gym's renovation. Having sent his children through the same school, it's likely Bill came within feet of the missing wallet several times since its 1946 disappearance.
